F1A_THICKNESS
SPL (dB)
θ from flight direction (deg)
compact far field H1
F1A thickness H1
compact far field H2
F1A thickness H2
compact far field H3
F1A thickness H3
error per point (no criterion) — clipped
F1A − compact (dB)
θ (deg) + 1000 × harmonic
θ=60° thickness (dB re compact far field)
θ=90° thickness (dB re compact far field)
θ=120° thickness (dB re compact far field)
